

The Seed Scout

A Known Sperm Donor Matchmaking Service

At The Seed Scout,

We **guide our clients through each step of the FDA process** as it relates to known donor screening and sperm collection.

We strive to make **the donor conception process more ethical** for the sake of donor conceived children.

We have a **three-family maximum** per donor and we require **yearly medical history updates** from the donor. Our donors are **24+** years old and have to approve their matches.

Our **personalized approach** allows us to meet each family's unique needs.

Our Process

1 Client/Donor Match Personalized donor options Three-family limit per donor	2 Initial Testing Semen analysis Carrier Gene Screening (400+ panel)	3 Legal Agreement Known donor contract with IPs and donor independently represented
4 Psych Consultations Psychological screenings for IPs, donor, and one joint screening	5 FDA-Approved Donations Collect at FDA-licensed clinic, lab or cryobank. Blood & urine testing, physical exam & FDA questionnaire	6 Shipping Collection site sends statement of eligibility & helps coordinate shipment of sperm to IP's fertility clinic
